

Mitsubishi Electric Power Products, Inc. Acquires Computer Protection Technology

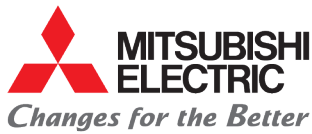

The acquisition of CPT further strengthens Mitsubishi Electric's service capabilities in the critical power industry

WARRENDALE, Pennsylvania – April 4, 2022 – [Mitsubishi Electric Power Products, Inc. \(MEPPI\)](#) today announced that the acquisition of [Computer Protection Technology \(CPT\)](#) has been completed. CPT is a leading critical power service and solutions provider in the southern California region. Financial terms of the transaction were not disclosed.

Demand for critical power equipment and services escalates as businesses pursue digital initiatives employing mobile, edge computing, internet of things, and data analytics. MEPPI has a long history of successfully satisfying customer needs for continuously reliable power products and solutions that maximize customer uptime. As a professional and experienced provider of critical power services, CPT has established a robust and loyal customer base. This marriage of a renowned critical power systems manufacturer with a leading service provider will create exponential value for customers of both companies.

CPT will maintain base operations in southern California, as a service branch of MEPPI.
